

DISCOVERING SPACE HISTORY

NASA's ARTIFACT PROGRAM

Preserving the Past, Inspiring the Future

Open to Unfold the Journey ⇌

CREDITS AND ACKNOWLEDGMENTS

Special thanks to our partners and supporters who help make the Artifact Program possible. NASA's Logistics Management Division and Office of Communications value your contributions which ensure that the legacy of space exploration continues to inspire future generations.

FURTHER RESOURCES

Explore the universe with NASA, where every
discovery is a journey into the unknown.

LIBRARIES AND RESOURCE CENTERS

Bring the universe closer to your community with NASA artifacts that enrich the learning landscape of your library or resource center. Captivate the imagination of visitors and foster a deeper understanding of space exploration and technology as your organization explores opportunities to host space-themed exhibits and educational events with authentic artifacts from NASA's missions. These resources offer a unique opportunity for self-guided learning and discovery, encouraging patrons of all ages to explore the vastness of space, science, and innovation. Together, we can inspire a new generation of thinkers, dreamers, and explorers right from the heart of your community.

INTRODUCTION

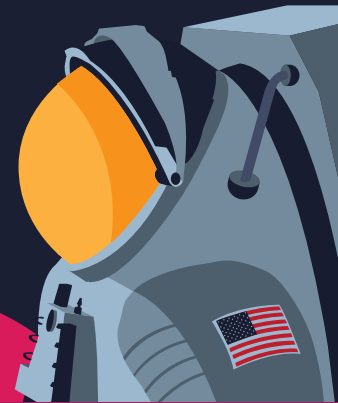

Dive into the legacy of space exploration with the NASA Artifact Module, an exclusive initiative designed for non-profit educational and cultural institutions. This remarkable program, managed by NASA's Logistics Management Division (LMD) in collaboration with the Office of Communications (OCOMM), allows eligible non-profit entities to acquire authentic NASA artifacts. Whether you represent museums, schools, interactive learning centers, libraries, or resource centers, your organization has the opportunity to showcase pieces of space history. Bring the adventure and achievements of space exploration to life, providing an inspirational and educational experience that connects the public with the cosmos. Embark on this journey with us to inspire, educate, and spark a passion for exploration in the hearts of all who visit your institution.

MUSEUMS

Discover the universe's wonders through authentic NASA artifacts! Enhance your museum's appeal with items that have traversed the cosmos or played a part in space history. These artifacts aren't just objects; they're storytellers, captivating audiences of all ages with tales of human ingenuity and the spirit of exploration. Acquire these objects for your collection to attract a diverse visitor base and offer unparalleled educational programs that bring the adventure and science of space exploration to life. Let's inspire the next generation of explorers together!

EDUCATIONAL INSTITUTIONS

Elevate your educational offerings with genuine NASA artifacts that bring the science of space directly into the classroom. From elementary schools to universities, these artifacts are unique tools to spark curiosity and ignite a passion for STEM subjects. Incorporating genuine space exploration items into your curriculum can transform abstract concepts into tangible, relatable experiences for students, enhancing their understanding and engagement. Shape the minds of future scientists, engineers, and astronauts with resources that transcend traditional learning!

INTERACTIVE LEARNING CENTERS

Transform your science center or planetarium into a gateway to the cosmos with NASA artifacts that offer hands-on learning experiences. These genuine pieces of space exploration history encourage visitors to dive deep into the mysteries of the universe, technology, and physics. Engage your audience with immersive displays and educational programs highlighting human achievements in space and the ongoing quest for knowledge. Let's spark a lifelong interest in science and exploration with every visit!
